Redefining Commands

Anuj Nair

1   Introduction

These are a few ways to control the typesetting output.

1.1   Continuing a list

1. First

2. Second

 Now I have more to say

3. Third

4. Fourth

 You can do this without a package too:

5. Fifth

6. Sixth

1.2   Changing the numbers

A. One

B. Two

C. Three

1.3   Changing the bullets

→ Ready

→ Set

→ Go

2   Conclusion

We can control output using packages, and by renewing LaTeX commands.
